

## MOBILE WORKERS ARE ABLE TO WIRELESSLY PROCESS PAYMENTS IN THE FIELD.

Whether you're delivering goods, making sales, or performing service calls, you can increase your cash flow by allowing your mobile workers to process payments right from their mobile phones. With **SmartPAY**:

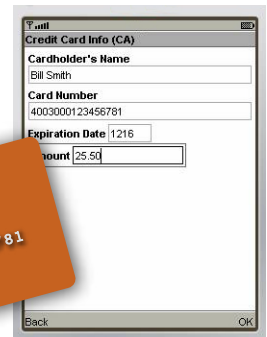

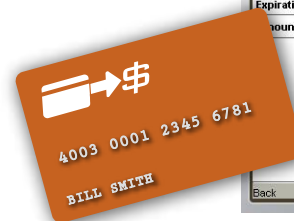

- Card info is entered right on your mobile workers' handset
- Payment is automatically processed in real-time
- Mobile workers receive immediate payment authorization
- No card swipe hardware is required
- All card types accepted - credit, debit, and stored-value
- Multiple transaction processors available
- Highest level of data transmission security, PCI Level 1 compliant
- New merchants activated in minutes

**Mobile Receipt Printing Available - Bluetooth Printer Required**

### Benefits Include:

- Dramatically increases the cash in your bank account with immediate payment processing
- Improves customer satisfaction by increasing payment options and simplifying the payment process
- Enhances security... PCI and PABP compliant
- Saves back office personnel time by eliminating invoicing / collections processing

### MOBILE PAYMENT PROCESSING!

Optimize Your Mobile Operations
