

AGILIS
SYSTEMS™

THE TOTAL SOLUTION FOR MOBILE WORK ORDER AND WORK FLOW MANAGEMENT. WITH A PUSH OF A BUTTON, MOBILE WORKERS CAN SEE COMPLETE JOB DETAILS, UPDATE THEIR JOBS AND COMPLETE ELECTRONIC FORMS

SmartWORKS provides real-time updates to dispatch on the mobile workers job status, location, activity and level of qualification for effective management. By combining the power and functionality of **SmartLOCATE** and **SmartDISPATCH**, **SmartWORKS** enables you to:

- Automatically give workers complete job details on their mobile device.
- Get real-time data updates from the field.
- Dynamically route optimize job sequence throughout the day.
- Eliminate paper-based orders / forms.
- Clock employees in and out remotely.
- Signature and photo capture for proof of delivery / service (device specific).
- Track inventory status in real time with manual entry or barcode scanning (device specific).
- SOS alerts management in case of an emergency.
- Play back a history of where resources have been for any day or time.
- Provides complete scheduling of workers and jobs-days and weeks in advance

**Now with Vehicle Maintenance Reports / Alerts -
Oil Change, Tire Rotation, Etc.**

Benefits Include:

- *Increases productivity to allow for better real-time and historical insight*
- *Know up-to-the-minute status and details of each job*
- *Reduces traffic offenses by tracking location and speed*
- *Eliminates paper-based reporting and reduce job detail errors*
- *Increases safety with SOS alerts*
